BSides Charlotte

April 5, 2025 - Conference

April 6, 2025 - Workshops

BSides Charlotte, is a registered 501(c)(3) non-profit organization. Your donation is tax deductible and helps our community focused organization provide cybersecurity education activities in the Charlotte, NC area through activities such as workshops and our annual conference.

BSides Charlotte Welcome

Thank you for your interest in sponsoring the annual BSides Charlotte security conference.

BSides Charlotte, Inc. is an IRS designated 501(c)(3) non-profit organization created to facilitate information sharing, cyber security learning, and security awareness through hosting an annual conference and occasionally holding low-cost training events for the local community.

BSides security conferences stand out because they're organized and run locally by dedicated volunteers, distinguishing them from other major security conferences like Gartner, RSA, BlackHat, and DefCon, which typically charge high fees ranging from hundreds to thousands of dollars for attendance. Historically, our tickets are less than \$50 for general admission and even lower for students.

Keeping our events low cost ensures that individuals, from students to experts, from analysts to executives, can learn and enhance their skills. This, in turn, boosts their personal value and the value they contribute to their organizations in a professional setting.

In addition to low cost, we attract participation from a wide area, with attendees joining us from North & South Carolina, Virginia, Georgia, Tennessee, Kentucky, Maryland, New Jersey, Delaware, Alabama, Florida, and more, including international!

We are only able to accomplish this through donations and sponsorships such as the one you are considering today. Your sponsorship will go toward the expenses incurred in putting on the conference including such things as content, competition materials, affordable trainings, venue, refreshments, and overall event costs.

We graciously thank you for your consideration and hope to partner with you to make BSides Charlotte an amazing conference again this year.

Please contact us if you have any questions or requests by email at sponsors@bsidesclt.org.

BSides Charlotte Overview

Target Audience & Attendance

BSides Charlotte draws a diverse audience, ranging from students to professionals in various IT fields, educators, executives, and industry thought leaders. This inclusivity is a fundamental aspect that contributes to the success and appeal of BSides Charlotte as an event for everyone.

Primarily, BSides Charlotte is a conference organized by cybersecurity enthusiasts for the local cybersecurity community. However, by embracing a virtual platform as well, we've expanded our reach, welcoming both local and global participants. The inclusion of international presenters and attendees has enriched the event, adding value to the BSides Charlotte experience. Our commitment to utilizing virtual platforms persists to engage international participants in the upcoming conference.

While BSides Charlotte focuses on the local cybersecurity community, attendance to the conference typically includes individuals from across the region such as, significant attendance from across all areas in North Carolina and South Carolina, and significant attendance as well from Georgia, Virginia, Maryland, Delaware, Ohio, Michigan, and more.

While we can't guarantee specific attendance numbers due to various factors, our attendance has steadily increased since our board change and relaunch in 2019. We have sustained approximately 350 in-person attendees year-over-year with approximately 100 additional virtual session attendees. With a hybrid model, an increase from a one-day to a two-day conference, the introduction of additional training and workshops, competitions, games, and other event enhancements, we aim to maintain and potentially surpass these attendance figures by continuing to build a dynamic and engaging experience for all participants. We have been working to sustainably grow conference attendance to a target of at least 500 in-person attendees year-over-year in addition to our online, remote attendees.
